

A Healthy Move for You

Oncor Encourages You to Quit

Oncor's Live Well Program is designed to help you achieve overall physical and financial wellbeing. The Tobacco Cessation Program is a part of our efforts to promote healthy living and to manage higher costs associated with tobacco-related behaviors.

If you or your spouse use tobacco and are enrolled in an Oncor medical option, you will pay a tobacco surcharge (\$600/person/year or \$50/person/month), unless you complete one of the program options described below.

What Are Your Tobacco Cessation Options?

- If you or your spouse use tobacco products and are enrolled in an Oncor medical option, you may complete a free Tobacco Cessation Program to waive the tobacco surcharge. If you are unable to participate in Oncor's free Tobacco Cessation Program, you can use a reasonable alternative standard, including one recommended by your doctor, in order to waive the surcharge. Log in to the *Navigate* portal at oncorlivewell.com, call **1.888.596.6750**, or email info@oncorlivewell.com for more information about obtaining a reasonable alternative standard.
- If you or your spouse stop using tobacco, ask your physician to attest that you have been tobacco-free for six months. Once you submit a Tobacco Cessation/Physician Affidavit to Oncor, the program requirement will be waived and the surcharge will no longer apply.

How to Waive the Surcharge?

Complete the *Tobacco Cessation/Physician Affidavit* and submit it to *Navigate* with:

- Appropriate documentation of tobacco cessation completion, OR
- Physician signature.

The tobacco surcharge on your medical premiums will stop as soon as administratively possible (up to three pay periods). The medical surcharge will not be retroactively refunded. **Note: The tobacco-user premiums for the Critical Illness and Life Insurance will not change.**

Find details on the **Tobacco Cessation Program** and the **Physician Affidavit** on the **Oncor Intranet** at **LiveWell > Benefits > Medical** or oncorbenefits.com/ee under the **Menu**, then **QuickLinks**.
